Thank you for keeping me informed. Beta may also have some comments on one or more of the forms for our platforms, but we plan to submit those in writing to Kristine along with our response to the letter we received.

Thanks,
Marina Robertson

Hi, Ruth – Venoco and BETA don't have to be on the call, if they would rather you handled the DMR conversation on their behalf – I just wanted to make sure all parties were kept informed of our discussions. No need to forward the email, as I just did so. I will look for your invite.

Thanks,
Kristine

Kristine,

I can send out a meeting invite and conference call number for Wednesday at 9am.

We are actively working to meet the 30 day deadline for the DMR reporting.

By the way we did not anticipate BETA offshore or Venoco being on this call but I can forward you their email addresses for reference.

I'm working on finalizing the list of topics for Wednesday's call and will have that out to you tomorrow.

Thank you,

Ruth Juris

Ruth et al. –

I'd be happy to have a call with you next Wednesday and am copying Sandra Chew (who is essential to the discussion) as well as Eugene. Sandra and I are both available all morning on Wednesday as well as from 2-3:00 PM. Please let us know ASAP what time you would like to meet. It would indeed help facilitate our discussion to receive the list of DMR-related concerns you have, by the end of this week. FYI, Sandra mentioned that she previously received a list of issues from Steve, and that she had already addressed them in the preprints; so I'm assuming these are new issues.

In the meantime, please keep in mind your clients' 30-day deadlines for submitting a new proposed format for DMR reporting. Their deadline for actually using the new format begins 30 days after that (60 days from receipt of the letter).

Could you please forward this message to Marina Robertson at BETA Offshore and Pat Corcoran at Venoco? I don't believe I have their email addresses.

Thanks,
Kristine

Kristine,

I'm following up on the phone message I left earlier today. I work with Steve Lawry at Freeport-McMoRan Oil & Gas on NPDES permit compliance.

We would like to set up a conference call next week, on Wednesday, to discuss the new EPA Form 3320-1 (Rev. 01/06), that was sent out by Sandra Chew.

We have drafted some concerns with the new EPA Form 3320-1 and plan to send the draft out to you at the end of the week.

Please contact me via phone or email to set up a call next week.

Thank you,
